

3

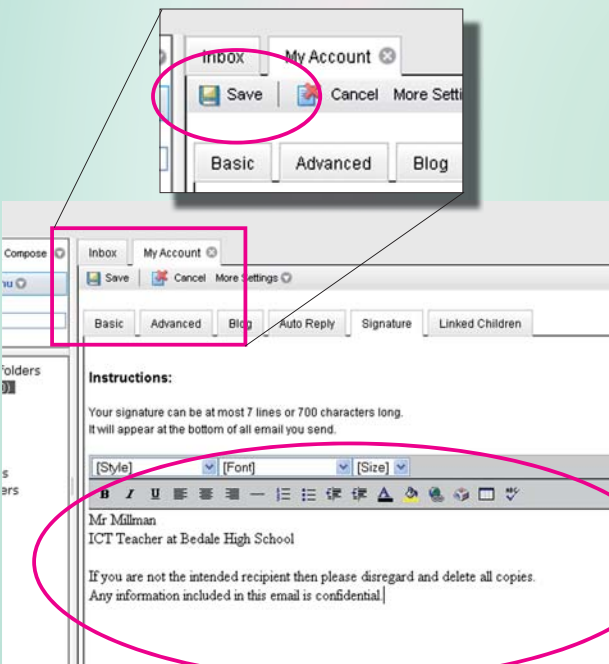

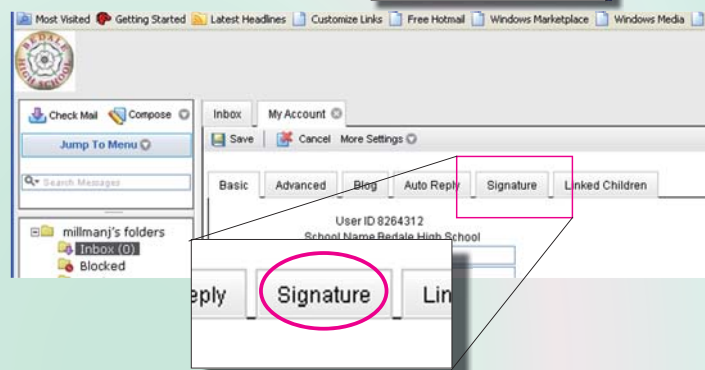

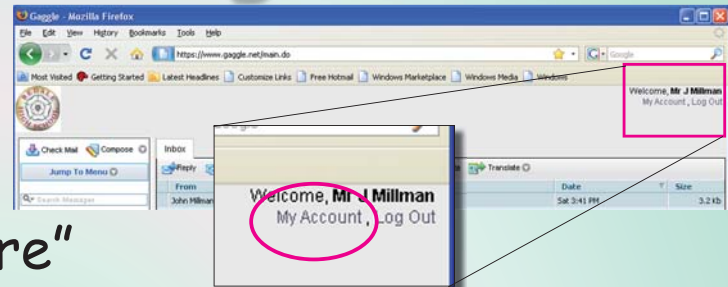

Creating an Email Signature

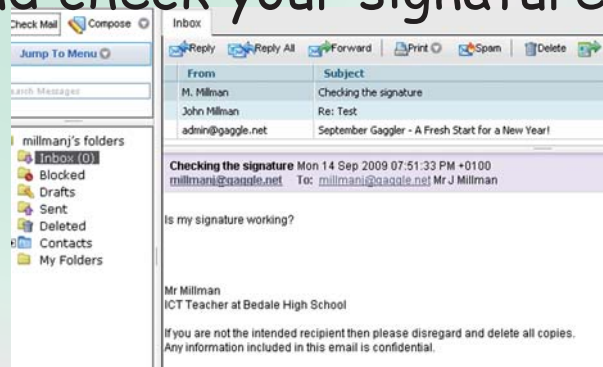

1 Click on "My Account"

2 Click on "Signature"

3 Type signature and then click on "Save"

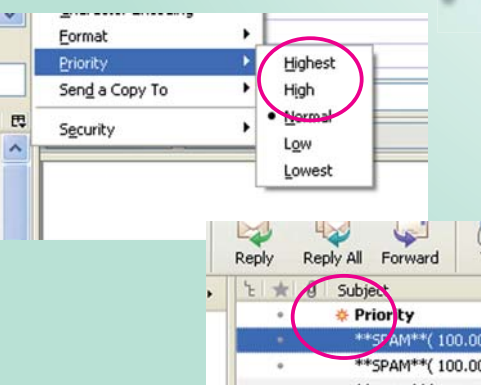

4 Compose an email to yourself and check your signature.

Priority Emails

Most email systems support a priority system. When you set the priority to High or Highest; a red symbol is displayed beside the email, when recieved.

Gaggle does not support this convention and when this happens it is normal to put the word "PRIORITY" in the subject box first.

Example from Mozilla Thunderbird
